

ENHANCED ASSISTED LIVING:
**AN ELEVATED
LEVEL OF CARE**

We have an **Enhanced Assisted Living License** that enables us to care for those who may not yet need nursing home care, but whose needs exceed traditional Assisted Living programs. Our enhanced level of care allows residents to remain with us even as their needs change.

WE SUCCESSFULLY BRIDGE THE GAP BETWEEN ASSISTED LIVING CARE AND A SKILLED NURSING FACILITY.

Our enhanced license allows us to assist more than average assisted living facilities with services including:

- Hourly Check-ins & Call Support
- PT Services for Ambulatory & Non-ambulatory Wheelchair Residents
- Catheter Care & Medication Assistance
- Care & Monitoring for Skin Conditions
- Monitoring for Insulin Dependent Diabetic Needs & Administer Injections

ASSISTED LIVING:

PERSONAL CARE AT ITS BEST

Assisted living is about more than providing assistance: it's about **empowering older adults to remain independent and connected**. With the support of a trained, 24-hour staff, **Assisted Living** residents enjoy an active lifestyle with the freedom to spend time as they please, all while benefiting from a broad array of activities, services and amenities. Private and semi-private suites are available. All suites include individual temperature control, internet, television and call systems.

INDEPENDENT LIVING RESIDENCES: STUDIOS & 1 BEDROOM

Independent Living allows the comforts of home with care when needed. Residents enjoy on-site entertainment with dancing and music, frequent outings and concierge services.
